EDUCATION

SASTRA DEEMED UNIVERSITY TN

Trichy,

Bachelor of Technology

2023 - 2027

Major in Computer Science Engineering; Specialization in IOT and Automation
Cumulative CGPA: 7.46/10.0

CHELLAMMAL MATRIC SCHOOL

Trichy, TN

High School Education(TNSB)

2021 - 2023

Class XII Marks: 552/600 (92%)

TECHNICAL SKILLS

Programming : Python, C, C++, Java

Systems: Linux, Bash, Docker, Git/GitHub, Networking Basics, System Monitoring,
AWS EC2/S3, CI/CD (GitHub Actions)

AI/ML: Numpy, Pandas, Scikit-learn, ML Pipelines, Evaluation Metrics, PyTorch,
Transformers (usage)

LLM Engineering: OpenAI/Gemini/Claude APIs, Prompt Engineering, Function Calling,
Embeddings, Vector Search (FAISS/Chroma), RAG Basics

AI Systems: LangChain, LangGraph (basic), Streamlit, Gradio

Backend: FastAPI, REST APIs, Basic SQL, JSON, Postman

PROJECTS

DevOpsAgent – Self-Healing CI/CD Automation Agent (In Progress)

LangChain, LangGraph, Docker, GitHub API, SQLite

- Automates PR review, Pytest execution, log inspection, and fix suggestion loops.

- Uses persistent workflow state to resume after crashes/timeouts.
- Includes human-in-the-loop approval before merging.

LLMTrace – LLM Behaviour & Token Influence Visualizer (In Progress)

Python, HuggingFace, Streamlit

Visualizes token influence, attention patterns, and probability shifts.
Flags sensitive tokens for debugging and prompt refinement.

Hybrid Self Evolving Neural Network

Python, Tensorflow, Flask, AutoML

- The **Hybrid Self-Evolving Neural Network** is a cutting-edge AutoML system capable of generating, optimizing, and training deep learning architectures from scratch based purely on a **user prompt** and a **dataset**.
- Unlike static model generators, this system uses an **evolutionary algorithm** to dynamically grow network depth, select optimal layers, and auto-correct input shapes, making deep learning accessible for complex tasks across multiple domains.

Extracurricular Activities

- Engaging with academic research in AI, physics, and mathematics.
- Pursuing literature, with a focus on science fiction and classical works.
- Spending time studying ethics and morality, exploring how AI and emerging entities reshape human philosophy.
- Managing home server systems and prototyping with 3D printing and CAD tools.
- Playing chess, Basketball, and badminton to develop strategy and fitness.
- Other interests: photography and violin.

Languages Known

- **Tamil:** Native proficiency
- **English:** Full professional proficiency
